

JOEY GHOSE

DRIVER (ENGLAND)

Joey has done many Rallying seasons in Kenya during the 1980' and 1990's. He managed 8th overall in the 1994 Safari rally as navigator and has had numerous podium finishes in the National rallies.

Born in Nairobi in 1962, Joey grew up in Eldoret, Kenya then moved to England in 1996 and now runs a Building Materials group in West Africa. He literally grew up with the East African Safari Rally as the highlight of the year, all year round was spent in preparation for the rally.....he spent many nights building cars, making plans however, with limited funds the success rate was poor!

Now with the 2009 K.Q East African Safari Classic Rally, he now has a chance to re-live that thrill, it is a dream come true!

He will be driving a Datsun 1600SSS. Joey will not have much "worry" much about the rough Safari Rally terrain and the event will definitely reward his quest for a safari thrill!

DENNIS SCHUMACHER CO-DRIVER

Dennis is keen on motorsports and is a 12 year veteran of the famous Rhino Charge in Kenya. Having lived in Kenya between 1989 and 2003, Dennis has a good feel of the rally support team and sound navigational skills.

His elusive dream to participate in the Safari Rally will finally be put in the bag in the 2009 KQ East African Safari Rally. This Management consultant living in Perth, Australia will be driving in a Datsun with a thrill seeking Joey Ghose.

CAR DETAILS (Datsun1600SSS)

[Datrats](#) have been commissioned to project manage preparation of a Datsun 1600 SSS for the 2009 East African Safari Classic by the entrant BCBS Motorsport of UK. The car will be driven by Joey Ghose of UK and navigated by Dennis Schumacher of Perth, Australia.
